

## **HIPPOS ON THE FLOOR**

**Ron Lynch Chalice 5-5-86**

Look around you, this is what you've created  
You've taken all the good in life and left us all the bad  
To say you've been no benefit would be greatly understated  
Why couldn't you be satisfied with what you already had?

### **CHORUS:**

You can't do anything  
You're lost in self-indulgence  
You take all that you can get  
and then you grab for more  
You work hard to ignore  
all that's happening around you  
you're as useful to the world as hippos on the floor

Look at your legacy, is somethin your are proud of  
Don't you really think it could have been so much more  
Does your life have some direction besides going 'round  
the circle of your ego and your mind's revolving door

### **CHORUS**

Is there anything you could ever take a stand on  
Something that could make you feel the need to get things done  
Do you have some solid ground that you could land on  
Or will you spend forever in your universe of one
