

**Nursie Nursie**  
**Ron Lynch Chalice (30 Jun 1993)**

What you got hidin' under that dress so white?  
Somethin' that's small, somethin' black, somethin' that's tight  
I gotta know or I'm gonna go out of my mind  
Will you show me tonight, if you can I will make the time  
See me, see me tonight  
I got a little something to make you feel right

If I come to your door tonight will you invite me inside?  
Will you tell me all or have you got somethin' to hide?  
Will you be alone or can we party with your friends  
'Cos either way it will put my mind on the mend  
See me, see me tonight  
I got a little something to make you feel right

Chorus:

Nursie, Nursie, feel my ragin' pulse  
my temperature's hot and my brain's gonna turn in to toast  
Nursie, Nursie, I feel like I'm on fire  
you can't cool me down 'cos I'm takin' my love to the wire

If you tell me no it won't bother me one little bit  
'Cos I'm out of control and I think I'm losin' my wits  
I'll be around after dark to pay you a call  
If you open the door it will be the end of you all

My name is Richard  
but you can call me Dick  
I've got a surprise  
and a real big stick

Nursie, Nursie feel my ragin' pulse  
my temperature's hot and my brain's gonna turn in to toast  
Nursie, Nursie feel my ragin' pulse  
Nursie, Nursie feel my ragin' pulse  
Nursie, Nursie feel my pulsin' RAGE!
