

ROCK AND ROLL SECRETARY
Ron Lynch Chalice 4-25-86

She doesn't type, she doesn't take dictation
All that she thinks about is going on vacation
That's not a dictaphone plugged into her ear
It's a bootlegged C-90 of some old Blue Cheer

CHORUS:

Rock and Roll secretary
I think her head is full of air
But she entertains the clients
and keeps them coming here
Rock and Roll secretary
Rock and Roll secretary

And if you call, don't let her put you on hold
'Cause she'll get distracted by some Motown or soul
She'll leave you hanging for an hour or two
That's if she ever remembers to get back to you

CHORUS

She even makes coffee but you'd be wise not to drink it
You want to take her out to dinner, don't even think it
Though she's never been productive, as you can plainly see
This Rock and Roll secretary, belongs to me
