

YOU
Ron Lynch Chalice 5-5-86

I hope that I can someday be
What you might wish and dream for
I hope that someday you can see
That you are what I'm here for

CHORUS:
You, You, You
A word that encompasses all my dreams
you, you, you
A word that says far beyond what it seems
You, You, You

I smile each time you look at me
Because I feel so good
And when you're standing next to me
I know it seems the way it should

CHORUS

Whenever I'm around you
I hear our music play
When I look deep inside of you
I know that you will stay

CHORUS

I know each thought you're thinking
and sense each thing you feel
our spirits will be linking
Since my love for you is real
